4) GENERAL FEEDBACK:

i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?

1. Notes on each of the sessions so as to be able to recap what was learnt quickly, re-watching the videos to find specific points is too time consuming
2. Feedback on the answers to the questionnaires from each session
3. Having access to the first video without having to be in the Neurotrader platform as the information on how to sign in and use the Neurotrader platform is in this video and if you haven't seen it then you won't know what to do. This happened to me as I could not attend the first webinar due to it being 2am in the morning (my time). I have also missed a few of the team meetings that did not record properly as well.

5) TESTIMONIAL

a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

1. The NT Program takes a different approach to trading, where they don't focus on teaching you strategy after strategy but instead focus on your personal traits and what makes you YOU and how these traits can affect your overall trading performance positively or negatively. I strongly recommend any struggling trader to take this course as it will show you where you are truly lacking in your trading journey and put you on the path to success.
