## 5) TESTIMONIAL

- a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.
  1. I came expecting nothing and I have received a lot, more than I could have ever expected. All this journey has been a real surprise. It hit the nail from day one and I have been working the hell out of me since the beginning. The NeuroTrader program is not only unique in the concept it adapts to the individual with such a clarity that it is difficult to express in words, you need to experience it for yourself. It is the best decision I have made, not only for me but for my family and my peace of mind as well.
