b. I found the lessons informative and helpful.

1. Yes  No

Yes, most of the lessons were thought provoking and useful. I liked that they covered many aspects of life including our environments. Some of the questions however were limited since the only two answers were "agree" and "disagree" with no room for grey area. I found that most of my answers were situational in reality.

c. I have come to learn of the importance that a balanced life has on my ability to become a peak performing trader through the NT program.

1. Yes  No

ii. Yes the functional areas were helpful, however I already strive to live a balanced life. Of course, there is room for improvement but I do not know how much of my balance can be attributed to my current state of trading. The banking and finance lesson was particularly useful, I thought.

d. I have, to the best of my abilities implemented the advice given in the lessons.

1. Yes  No

ii. Yes, in general I try to follow each of the functional areas by keeping myself healthy, positive, and in a clear mindset. Most of this I have been doing since joining Chris Capre's class in 2016.

f. I feel better and more positive/hopeful of becoming a peak performing trader having completed the NeuroTrader Academy preliminary psychological phase (10 functional areas of life).

1. Yes  No

ii. Yes in the sense that I have the right environment and mindset. The question is do I have the Price Action skills to remain consistent.

#### 4) GENERAL FEEDBACK:

i. What would I like to see in the NT program that would improve the effects for myself and other traders starting the same peak performance journey?

Some kind of summary trader profile based on the answers we completed in the functional area quizzes. This way we have a dashboard view of our current state and can track our progress through the course, as well as make updates to our answers.

A timeline of what to expect each week and info on what each meeting will be about. Seems as though timelines keep getting pushed so there is a lot of idle time with nothing to fill that with. With the right pre-meeting prep material, the meetings could be more productive.

Clarity / an update on how the program will proceed (so everyone is on the same page as far as what to expect). Since it was supposed to be six months of Bio data analysis. Will that still be happening along with the monthly email correspondence? That is where I would grow and gain the most value I believe.

#### **5) TESTIMONIAL**

- a. Having completed this first phase of the NT program, please write a testimonial for other traders in the space provided below.

Having completed the NT 10 Functional Areas, I have discovered the many aspects involved in achieving peak performance and pushing myself as a trader. You are challenged to think outside of the box while gaining honest insights into what areas of life you may need to improve. The 10 Functional Areas were challenging, dynamic and enlightening.
