

Let's work TOGETHER

Here's what we can all do to reduce the coronavirus risk during the upcoming work.

WHAT WE'LL DO

- Communicate beforehand how we plan to work safely
- Assure you we're symptom-free and safe to work
- Wash our hands before, during and after the job, using our own hand towel.
- Wipe down all tools and instruments being used
- Remove all wipes, plastic gloves and overalls and dispose of them.

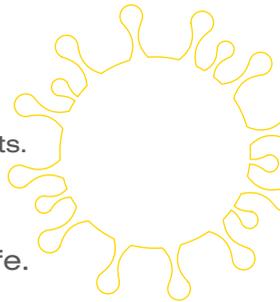

WHAT YOU SHOULD DO

- Read and understand how the work will be done
- Make sure no one has symptoms or is isolating
- Open the door and stand back when we arrive. Ventilate the work area if possible, e.g. open a window
- Stay in a separate room while the job is being done
- Sign for anything electronically later.

WHAT WE'LL BOTH DO

- Not shake hands
- Observe physical distancing at all times
- Use cards instead of cash to make payments.

Thank you for your cooperation.
By working together, we can all stay safe.
