

about us

The Little Skin Clinic provides skin treatments in facial aesthetics providing clinical excellence in bespoke treatments for the individual. We provide non surgical, face lifts and promote good skin care, relevant to anti ageing and radiance. We are passionate about the quality, care and outcomes of our treatments.

Consultations involve a full assessment and detailed discussion. A full medical history will be taken and if you decide to proceed with treatment consent will be obtained ensuring you have a full understanding of the procedure. Photographs are taken before and after treatments to record improvements and have a record of results.

microneedling

Microneedling is a type of treatment that uses small needles to cause tiny punctures in the skin. As your skin repairs, the production of collagen and elastin is triggered to give an almost immediate plumping effect.

filler treatments

Fillers soften signs of ageing, including wrinkles, fine lines and plumping of the lips. At The Little Skin Clinic we use only the best products including Juvederm, a highly acclaimed professional filler.

chemical skin peels

Peels exfoliate, smooth and refine the skin, here at the little skin clinic we have different types of peels, each having different properties and being suited to different skin concerns.

treatments

-  Micro Needling
-  Dermal Fillers
-  Anti Wrinkle Injections
-  Chemical Skin Peels

Please visit www.littleskinclinic.co.uk for our full pricelist.

anti wrinkle injections

Anti wrinkle injections are increasingly popular and have revolutionised our approach to facial ageing. They are relatively painless injections that can last 3-6 months.
