

WELCOME TO GLOFII

GLOFII is a private organization that seeks to establish a business platform through integrated farming where everyone has the opportunity to explore the agricultural sector, job opportunities, innovate as well as start their own business, along with new innovations in the fields related to agriculture, an environment to find solutions of problems and that the same people can contribute to the progress of the society and the country.

We are starting our journey by establishing integrated farming farms with the farmer families of the state of Rajasthan, which we will gradually reach to other neighboring states and then across the country as well. Our aim is to take Integrated Farming to new heights across the country and bring maximum benefits to the people. To make our work successful, we have a team of trained and experienced people who, with their experience will give complete information about this business to farmers, women, and others.
