

Clariter is a global clean-tech group with a proprietary technology and an innovative solution for the world's plastic waste problem. Using a unique patented process, Clariter converts end-of-life plastic waste into high-grade petrochemical products in over 1000 applications. Clariter occupies a unique, differentiated and compelling space in the Chemical Recycling sector, transforming plastic waste no-one wants into valuable, pure products everyone needs. If you want to be part of a dynamic, exciting business that will significantly change the world and Industry, and make a big impact, join the Clariter Family!

Clariter operates in 4 countries (Luxembourg, Israel, Poland, and South Africa) and employs over 80 professionals globally. Our team embodies a rich range of professional experiences, nationalities, religions, and ethnicities. At Clariter, we create a supportive work environment based on collaboration. Our company philosophy goes against the typical corporate rules. We are environmentalists, yet we believe that only long term economically sustainable solutions provide true answers. We aim to create a clean world - a better place for us and future generations. We value the environment which we live in, in-field expertise, and people as humans, as they are what Clariter is built from. We love what we do, and we do it for a reason. We do not just have jobs; we have a calling. People are fundamental to Clariter's success thus, along with our growth, we need a knowledgeable and experienced
