

ERCST “Informal Forum on Implementation of Article 6 of the Paris Agreement”

Registries and ITMOs in integrated grids case studies

June 24, 2020

Agenda

Date: June 24, 2020

Time: 1 pm Brussels time

Location: Zoom videoconference

Project Background and Approach

This webinar is part of the “Implementation of markets and non-markets provisions in the Paris Agreement” project, which aims to create an informal atmosphere, where the main objective is to explore, discover, explain and understand different points of view related to the issues in Article 6 of the Paris Agreement. That is, to understand the options available to define rules, modalities and procedures on Article 6 of the Paris Agreement, as well as the consequences of adopting each option.

What is also very important is, to the extent that participants are willing to explain, to understand the different views, and more importantly, WHY these views are held. The discussions will be free and informal. They are generally introduced with a presentation from ERCST and launched with reflections from the participating negotiators. Discussions will be held under Chatham House rules (views expressed can be quoted but cannot be attributed to any of the participants). At the end of each meeting we will not produce summaries, but a Reflection Note, with what the Chair took back from the discussions.

Above all, this process is totally separated from the UNFCCC negotiating process. There is no intention, or mandate, to produce any text or negotiate an outcome.

13:00 Welcome remarks

- A. Marcu, ERCST

13:05 Presentation of the Reflection note

The session will begin with the presentation of the reflection note from the previous Article 6 webinar on CDM transition numbers, which took place on May 26th.

- A. Marcu (ERCST)

13:20 Presentations on Registries

The meeting will continue with presentations on Registries (about 10 min each). This will be followed by a roundtable discussion.

- A. Steen (UNFCCC)
- S. Lim (Republic of Korea)
- M. Peters-Stanley (USA)

14:10 Presentations on ITMOs exchange in integrated grids: case studies

The session will continue with the presentations of case studies of ITMOs exchanges in integrated grids. This will be followed by a roundtable discussion.

- A. Marcu (ERCST)
- M. Burian and J. Schnurr (GFA Consulting Group)

14:55 Conclusion
