

## UKATA Asbestos Awareness training

### 1. Course content

- Nature and properties of asbestos and its effects on health
- Uses and likely occurrences of asbestos in buildings and machinery plant
- Know how to avoid the risks from asbestos by understanding;
- Where to obtain information on asbestos in premises prior to commencing work;
- What to do if suspicious materials are found;
- How to use appropriate workplace precautions, including the risk assessment process, or seek
- Advice on workplace precautions, in respect of the risks of asbestos;
- Undertake work activities in a safe manner and without risk to themselves or others.
- Awareness of the key aspects of the asbestos regulations and how they fit into the broader context of health and safety legislation.
- Procedures to be followed when coming into unintentional contact with ACMs and an understanding of the appropriate emergency arrangements.

### 2. Course overview

The Control of Asbestos Regulations 2012, Regulation 10 requires every employer to ensure that adequate information, instruction and training is given to their employees who are or who are liable to be exposed to asbestos, or who supervise such employees.

During this interactive session delegates will watch videos, see asbestos under controlled conditions, take part in activities and discuss their sector specific asbestos uses. On completion of the course, a short multiple-choice test will be issued to each delegate. Those who pass will receive a UKATA Asbestos Awareness Certificate, which is logged on the UKATA website and is searchable for verification.

### 3. About the course

- Our Asbestos Awareness course is UKATA approved and CPD accredited.
- The course is interactive and includes videos and safely looking at actual asbestos.
