

Wednesday 25th March

Reading

Complete one of your Reading booklets and questions.

Writing

Choose a jungle animal and complete some research on your animal i.e.

Where do they live? What do they eat? What do they look like? Is there anything interesting about them? Etc.

Use your research and create a fact file of your animal, like the example below. Try to include sentences of three ideas and different sentence types.

**Jungle Animal Fact File**

**Poison Dart Frog**

The poison dart frog is one of the most poisonous animals on earth.

Poison dart frogs live in tropical rainforests in South and Central America.

They have excellent eyesight and a very sticky tongue to help them catch prey.

They are brightly coloured to put off predators. Their colours can range from red, green, blue and black to yellow, gold and copper.

Poison dart frogs are about 3cm tall.

Did you know...? The golden poison dart frog has enough poison to kill 10 adult men.

Indigenous tribes have used these frogs to poison their darts for hunting. Did you find the clue in their name?

The image features a green background with black line-art illustrations of jungle plants and vines. Two circular inset photos show a blue poison dart frog and a yellow poison dart frog. The text is presented in white boxes with orange borders.

### Maths

Use your ruler to measure the length and height of items around the house. Make sure you estimate first and always start your measuring at 0cm. If you have access to a metre stick or measuring tape, then measure larger items too.

Then draw:

A square with 7cm sides.

A square with 9 cm sides.

A rectangle 6cm by 4cm.

A rectangle 8 cm by 5cm.

### Practice spelling the words:

Gem

Giant

Magic

Giraffe

Energy

Spelling words with the 'j' sound which is often spelt with a 'g' before 'e', 'i' and 'y'

Spend ten minutes practicing and then get someone to test you. Can you put the words into sentences?
