Can you help me write a list of what I should take to Kenya? Think about what the weather will be like and what we will be doing.

What to pack for Kenya...

- Camera
- T-shirts
- Socks

Name one thing you wouldn't need to pack:

Why would you not need this item?

Why do you think a camera was top of the list?

Describe what you think the weather will be like in Kenya.

Which three things do you think are most important to pack and why?

How is the climate in Kenya different to the climate in the UK?

Climate in Kenya	Climate in the UK

socks

woolly hat

camera

winter coat

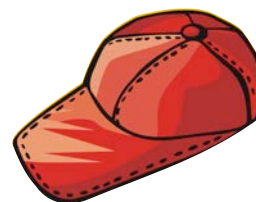

dishwasher

T-shirt

vest

sun hat

jumper

scarf

shorts

winter boots

skis

sun cream

pet cat

passport

trainers

bed

pyjamas

ice skates

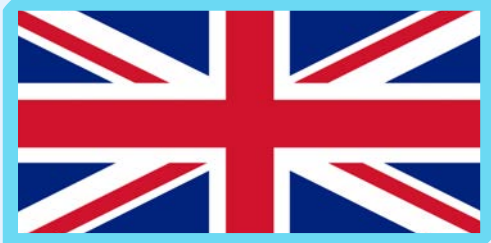

There is snow and ice in winter.	There are two seasons: the dry season and the wet season.
January is a cold month.	July is a cooler month.
The wet season is very humid.	It is hot all year round.
January is a hot month.	July is a hot month.
There are four seasons: winter, spring, summer and autumn.	April and May are the wettest months.
There is very little rain during the dry season.	It can rain a lot in each season.

How is the climate in Kenya different to the climate in the UK?

A season is a part of a year. In the **UK** there are four **seasons**: spring, summer, autumn and winter.

In **Kenya** there are two **seasons**: the wet or rainy season and the dry season. Both seasons are hot.

In the UK, **spring** is from March to May, **summer** is from June to August, **autumn** is from September to November and **winter** is from December to February.

In Kenya, the **wet** seasons are from March to May and November to December. It rains a lot in the **wet** seasons and is very **humid**.

In the UK, July and August are the hottest months. In winter it **snows** and there is lots of **ice**.

In Kenya, the **dry** seasons are from January to February and June to October. It is less humid so it feels cooler than the wet seasons.
