Refrigerator	Sea Water Pump	Stern Thruster
Washing Machine		

EXTERIOR EQUIPMENT

Cockpit Cushions	Cockpit Shower	Cockpit Table
Electric Windlass	Hydraulic Gangway	Teak Cockpit
Tender		

PLEASE CALL/EMAIL FOR SPECIAL PRICE AND SALES CONDITIONS !

"Juliette IV" was the first and only Hatteras 64MY built with numerous customizations to adapt the vessel for an optimal use in the Mediterranean Sea: 220V/50Hz circuits, CE Certification, upgraded anchor and mooring systems, hydraulic gangway and much more...

The Hatteras 64 Motor Yacht boasts sleek, contemporary exterior styling matched to a luxurious interior, which is finished to the industry's highest standards. The result of acute attention to customer input, the model's design features a fresh accommodation plan and intuitive touches throughout the vessel. The 64 incorporates Hatteras' popular convex hull shape, allowing for more interior space forward and providing for a soft ride in rough water. Deep propeller tunnels afford a 4-foot, 8-inch draft, while efficient propulsion technology provides a top end of over 30 knots with optional engines. If you're looking for the ultimate combination of performance, luxury, convenience and quality, you'll find it in the 64 Motor Yacht.

The 64 Motor Yacht features a 190-square-foot salon while providing an ample 10 inches of side decks for access to the bow. Comfort abounds, thanks to custom furnishings and a logically placed entertainment center, featuring a 37-inch plasma TV mounted forward and to port.

Just three steps up, the salon opens into a 146-square-foot galley, dining and pilothouse area. The galley is fully equipped with top-of-the-line appliances, arranged in a U-shape for cooking convenience. Upper and lower cabinets provide plentiful galley storage. Directly to port lies a comfortable dinette with solid-surface table and large drawers underneath. The lower helm station features single-lever electronic controls and a full electronics suite.

Belowdeck, a full-beam master stateroom includes twin nightstands, dressers and wardrobes on each side of the king-size berth. Dual hanging lockers add to the tremendous storage. For entertaining, a 20-inch LCD TV is standard along with a stereo and DVD player. A spacious port guest stateroom features side-by-side twins, while the bow stateroom features a queen berth hinged with cedar-lined storage. For those who require a fourth stateroom, a slightly reconfigured master allows for upper/lower berths.

The 106-square-foot aft deck provides convenient access to the swim platform and features fiberglass seating, a solid-surface table, ample lighting and stereo speakers. A fiberglass stairwell provides quick access to the bridge as well as a large storage compartment below the steps. Up on the flybridge, a centerline helm assures unparalleled visibility forward. Twin helm seats and an L-shaped lounge with storage underneath provide ample seating, and a dry bar with refrigerator to starboard keeps entertaining options open. A modular design approach allows the owner to add additional cabinetry to house an electric grill, or additional seating aft of the standard dry bar.
