

Maths – times table practice – 2, 5, 10s.

$10 \times 3 = \underline{\quad}$	$2 \times 10 = \underline{\quad}$	$10 \times 4 = \underline{\quad}$	$2 \times 4 = \underline{\quad}$
$2 \times 8 = \underline{\quad}$	$5 \times 4 = \underline{\quad}$	$5 \times 6 = \underline{\quad}$	$5 \times 5 = \underline{\quad}$
$2 \times 7 = \underline{\quad}$	$2 \times 6 = \underline{\quad}$	$2 \times 10 = \underline{\quad}$	$2 \times 4 = \underline{\quad}$
$5 \times 2 = \underline{\quad}$	$10 \times 7 = \underline{\quad}$	$10 \times 5 = \underline{\quad}$	$2 \times 4 = \underline{\quad}$
$5 \times 4 = \underline{\quad}$	$5 \times 7 = \underline{\quad}$	$2 \times 2 = \underline{\quad}$	$5 \times 7 = \underline{\quad}$
$5 \times 1 = \underline{\quad}$	$2 \times 5 = \underline{\quad}$	$2 \times 9 = \underline{\quad}$	$5 \times 10 = \underline{\quad}$
$2 \times 3 = \underline{\quad}$	$10 \times 3 = \underline{\quad}$	$10 \times 6 = \underline{\quad}$	$10 \times 1 = \underline{\quad}$
$10 \times 9 = \underline{\quad}$	$2 \times 9 = \underline{\quad}$	$10 \times 7 = \underline{\quad}$	$5 \times 5 = \underline{\quad}$
$10 \times 9 = \underline{\quad}$	$2 \times 6 = \underline{\quad}$	$5 \times 3 = \underline{\quad}$	$10 \times 8 = \underline{\quad}$
$10 \times 6 = \underline{\quad}$	$5 \times 9 = \underline{\quad}$	$10 \times 7 = \underline{\quad}$	$5 \times 6 = \underline{\quad}$
$2 \times 10 = \underline{\quad}$	$5 \times 5 = \underline{\quad}$	$2 \times 5 = \underline{\quad}$	$10 \times 10 = \underline{\quad}$
$5 \times 10 = \underline{\quad}$	$10 \times 5 = \underline{\quad}$	$5 \times 10 = \underline{\quad}$	$10 \times 8 = \underline{\quad}$
$5 \times 8 = \underline{\quad}$	$10 \times 2 = \underline{\quad}$	$10 \times 9 = \underline{\quad}$	$2 \times 1 = \underline{\quad}$
$2 \times 2 = \underline{\quad}$	$10 \times 10 = \underline{\quad}$	$2 \times 2 = \underline{\quad}$	$10 \times 6 = \underline{\quad}$
$5 \times 3 = \underline{\quad}$	$10 \times 5 = \underline{\quad}$	$5 \times 3 = \underline{\quad}$	$2 \times 9 = \underline{\quad}$
$2 \times 6 = \underline{\quad}$	$5 \times 1 = \underline{\quad}$	$10 \times 1 = \underline{\quad}$	$2 \times 5 = \underline{\quad}$
$10 \times 4 = \underline{\quad}$	$5 \times 2 = \underline{\quad}$	$2 \times 8 = \underline{\quad}$	$5 \times 9 = \underline{\quad}$
$10 \times 2 = \underline{\quad}$	$10 \times 1 = \underline{\quad}$	$2 \times 3 = \underline{\quad}$	$5 \times 4 = \underline{\quad}$
$2 \times 7 = \underline{\quad}$	$2 \times 1 = \underline{\quad}$	$10 \times 10 = \underline{\quad}$	$5 \times 8 = \underline{\quad}$
$2 \times 3 = \underline{\quad}$	$10 \times 8 = \underline{\quad}$	$5 \times 7 = \underline{\quad}$	$2 \times 1 = \underline{\quad}$

You could also practice

- Bonds to 10. E.g. $2 + 8 = 10$
- Adding 2 digit numbers together. E.g. $23 + 34 = 57$
- Adding 10 to any number. E.g. $34 + 10 = 44$
