

Creative Curriculum

Research

Your task is to research a natural disaster. Choose one from the list below.

When you are researching you need to find out information for the questions below.

Make sure you gather as much information as possible as we may be using the information as the inspiration for our Literacy work when we return to school.

Natural Disasters

- Tsunami
- Earthquake
- Volcano

Questions to answer:

- What is the natural disaster?
- How does the natural disaster occur?
- What happens during and after the disaster?
- How can we prepare for this disaster?

You can present the information you gather any way that you like.
