

**Creative writing:**

Write a story that is set at the beach or near the sea. I have included some pictures to inspire you, but you could choose a different seaside place.

You can use the story "**when a dragon moves in**" and change some characters if you would like to. Or you could make a completely different story!

Use the boxes below to help you plan your story (you can draw these into your book).

Remember to use exciting words to make your writing more interesting.

**Who:**

(choose 2 characters that will be in your story and describe them.)

**Where**

(Describe the place that your story will happen in. Remember it must be near the sea or ocean)

**When**

(When is the story happening? Does it happen all in one day or over a week? Maybe it takes a long time.)

**What**

(what will happen in your story? Choose 2 main events and describe them here.)

You are now ready to write your story in your book.
