11th May 2020

Dear Children,

I hope you are all keeping well and that you are all healthy. It has been a while since we have all been together and if you watched the BBC on Sunday evening, you would have seen the Prime Minister (Boris Johnson) explain to everyone that it may be a little while longer until we can return to school. However, he has said that class 6 will be one of the first classes to return if all is safe at the beginning of June.

Until then, it is important that you do your best to keep active and to keep using your brains. Remember the brain is like a muscle and that it is important to continually keep it active, so make sure that you are attempting some of the work that is being put up on the website each week and make sure that you are being creative every day and finding new ways to extend your learning across all topics. There are many great resources that are available on the internet.

The next three weeks may be a good opportunity for you to strengthen your skills associated with any of your hobbies or maybe it is even a great opportunity to find a new hobby. I can promise you that I have also been very busy working from home and I have been attempting to perfect my gardening skills. I have also taken up a new hobby and have started to learn how to play the guitar. It is a long and arduous process but the key is to be consistent and to stick with it and to be proud of any progress that you make, no matter how small.

I look forward to seeing you all when we return and I can't wait to hear about any new hobbies that you will have discovered during lockdown.

Keep safe and stay active,

Mark Nunn
Assistant Head
Class Teacher
