

High Flow Nasal Cannula Device with compressor

HFNC-201

- * Blender having two flow meter 0-10Lpm and 0-60Lpm
- * Blender having single flow meter 0-60Lpm or 0-80Lpm
- * Humidifier with heated circuit and silicon nasal cannula
- * Attached compressor

Technical Innovation for life:

CE

Shiva Enterprises

ISO
13485:2016
Certified

Blender :Oxygen concentrative range 21-100%
Fio2 accuracy +-3% of full scale
Gas source pressure difference 0.1Mpa/14.5psi
Alarm type beeping,storage temperature -40 to 50°C
Operating Temperature 5-40°C
Supply pressure 50-65 Psi

Humidifier :3 layer temperature control
Dry and over heating protection
Working temperature 5°C to 40°C
Storage relative humidity<90%

Compressor :Out flow-50+-5Lpm at 60Psi
Air outlet fitting-Quick touch coupler

Overall :Dimension=18"×18"×65"
Power-230VAC+-10%,50/60Hz,550W
Wt-60kg
