

Safety Boat

IMPORTANT NOTICE

Before all outings the safety boat must be :

- **fuelled and on the water**
- **tied up on the jetty 'at the ready'**

If you are first to arrive for an outing - please do these things before you do anything else :

- 1. Pick up the fuel tank stored at the boatyard locker**
- 2. Get the safety boat out and check it over**
- 3. Put crew lifejackets in the boat and attach engine**
- 4. Launch the boat and get it ready, tied up on the jetty**

If you are last to leave and you notice the boat is still on the jetty, please trolley it out and put it back in the boat house: stern first
