The Arden group recognises its corporate responsibility in relation to operating within acceptable ethical, social and environmental boundaries. This means ensuring that our operations, and those of our immediate suppliers, operate to the highest standards, and that we use our influence to ensure that our supply chain meets our strict criteria.

This policy has been endorsed by senior management, who fully support its implementation and are responsible for ensuring that it is communicated, understood and maintained at all levels within the organisation.

Our Environmental Policy commits us to ensuring that the human and natural environment with which Arden interacts is protected both today and into the future as we continue to use resources in managing our business. We will achieve this through the efficient use of these resources, preventing pollution, minimising waste and the promotion of recycling.
