Defended Matters

Charges applicable to defended cases will vary dependent on the sum claimed and the grade of fee earner handling the claim.

Our standard rates are as follows:-

Partner/Director	£270.00
Solicitor	£240.00
Para-Legal	£140.00 - £170.00
Administrative Assistant	£110.00

On all defended actions our terms of engagement will be sent to you which give further details of how our charges are calculated. The above rates do not include VAT.

We also ask you to note that when claiming interest and late payment compensation this may take the debt into a higher bracket, with a higher cost.

However, recovery of these sums will often mitigate or even extinguish the fee otherwise charged to you.

The costs quoted above do not include fees for enforcement action which may be needed to collect your debt and all enforcement charges are available upon request.

We believe our fees are very competitive, but we cannot stress enough that speaking to us to discuss our services in greater detail is the best step you can take. We are more than happy to speak to you free of charge so we can understand what your specific debt recovery requirements are and see how we can provide a package of services that properly meets your debt recovery needs.
