

Working together to keep safe this half term

The chance of catching and spreading the virus remains high, especially when crowded together indoors. Please remain cautious when mixing with friends and family this half term:

Choose to wear a face covering when socialising in indoor venues

Try to meet outside where Covid-19 particles can blow away

If you are meeting inside, let fresh air in by opening windows and doors

If you have no symptoms, check you aren't infected by taking regular lateral flow tests

Book a PCR test if you're feeling unwell and have symptoms

Stay home if you are feeling unwell to help protect others

Self-isolate if you test positive for Covid-19, or if you're a close contact and aren't double jabbed

We are continuing to work closely with schools to ensure children and young people get the best education offer possible after the half term break. You can help by taking care during half term.

Be cautious, be careful, be kind.
