

Hydratint™

Aqueous Pastes

Hydratint 3400 Aqueous Pastes are designed for in-plant tinting of water based architectural paints. The pastes have excellent compatibility with various types of emulsion paints, such as Pure Acrylics, Styrene Acrylics, Vinyl Acrylics etc.

The pastes are highly concentrated to provide cost economics to the user. The carefully selected pigments used in the concentrates and the sophisticated manufacturing process through which Hydratints are made, ensure high performance and allow for precise achievement of color from batch-to-batch.

Hydratint pastes can be added manually, by pumping or through dispensing machines. They come in a selection of 12 colors in a sturdy convenient pack of 25 kg.

These aqueous pastes also have varied applications, in a range of industries including inks, paper, textiles, latexes, personal care etc.

Explanatory notes to the column headings used in the table

Mass Tone - 10% by weight in clear base
Reduced Tone - 2% by weight in pastel base
Specific Gravity - Standard Value \pm 0.025

Note: Colors are for indication purpose only

Hydratint pastes are available in the following markets:

- India & Indian Subcontinent
- Africa
- Middle East
- Europe
- South East Asia
- Australia & New Zealand
