

Safety in the Workplace

TTAG Ltd strives to achieve highest standards of health and safety in all our activities. We aim to exceed our customers' expectations with a professional approach that ensures each project is completed on programme and to the highest standard.

TTAG Ltd will ensure that every client receives such levels of Quality, Service and Reliability that they come back to us with future business and recommend us to business partners. These targets will be achieved with the commitment and participation of all TTAG Ltd staff to the following policy:

- Providing adequate resources in terms of time, financial and physical so that all legislative requirements are complied with.
- Monitoring legislative developments and ensuring all operations are carried out in accordance with all applicable statutory requirements, Codes of Practice and Standards.
- Consultation on health, safety and environmental issues, with all the company's employees. The results of the feedback from the consultation process shall be assessed and acted upon where considered necessary.
- Setting suitable targets and objectives with the aim of attaining continual improvement in health, safety and environment in all the Company's operations.
- Adopting, auditing and monitoring regimes to ensure compliance is achieved.
- The provision of information, instruction, training and education to ensure staff and operatives have an adequate understanding of our Policy, relevant legislation and the health, safety and welfare aspects of the Company's activities. This includes skills and competency.
- The Manager/supervisor on each site ensuring the company's Health and Safety Procedures are implemented by all employees including subcontractors.
- The establishment and maintenance of a culture where employees are aware of their individual duties to take care of themselves and others that may be affected by their work, and to co-operate with the Company to fulfil its duties under legislation.
- Ensuring that proactive assessment of operations identifies those hazards and risks associated with them and control measures implemented that negate the hazard or reduce residual risks to an acceptable level, such that incidents, accidents and ill-health are prevented.
- The provision and maintenance to ensure that, the use, handling, storage and transport of articles and substances are safe and without risk to health.
- Maintaining arrangements to ensure that, the use, handling storage and transport of articles and substances are safe and without risk to health.

Quality

Service

Reliability

Fully Trained & Qualified Scaffolders and Bricklayers.

TTAG Ltd is committed to developing and maintaining a fully trained and competent workforce. We are active members of the NASC and CITB so therefore place great emphasis on achieving best working practice through our procedures and developing all of our operatives with progressive training.

In providing suitable and sufficient training, TTAG Scaffolding Ltd seeks to achieve the following objectives:

- To encourage a culture of ongoing development and raise awareness of the importance of good Safety, Health and Environmental management.
- To reduce potential problems (i.e. injuries, ill Health, damage or loss) which may arise due to unsafe working conditions and/or practices.
- To meet the requirements of Safety, Health and Environmental legislation.

TTAG Ltd is committed to ensuring;

- All Management is trained or working towards SMSTS as a minimum requirement.
- All Supervision is trained or working towards SMSTS or SSSTS as a minimum requirement.
- Bricklaying and Scaffolding operatives are trained to relevant SVQ levels.
- All operatives hold valid C.I.S.R.S / CSCS cards.
