

Below are the recommended activities to be completed each day of w.c. 1st June. As always **none of the activities are mandatory**, however they are the sorts of things we would have been doing with the children. Highlighted in yellow are the names of any of the resources needed for each activity that are available on the school website for you to download. Do not feel you have to print out all of the resources. You may want to use them as a guide and use paper or a whiteboard to complete the work on. Please continue to upload work, photographs etc to your online learning platform (Tapestry/Seesaw) for the teachers to see.
