

W/C 11.5.20 - Year 5 Home Learning Week 4 – Maths

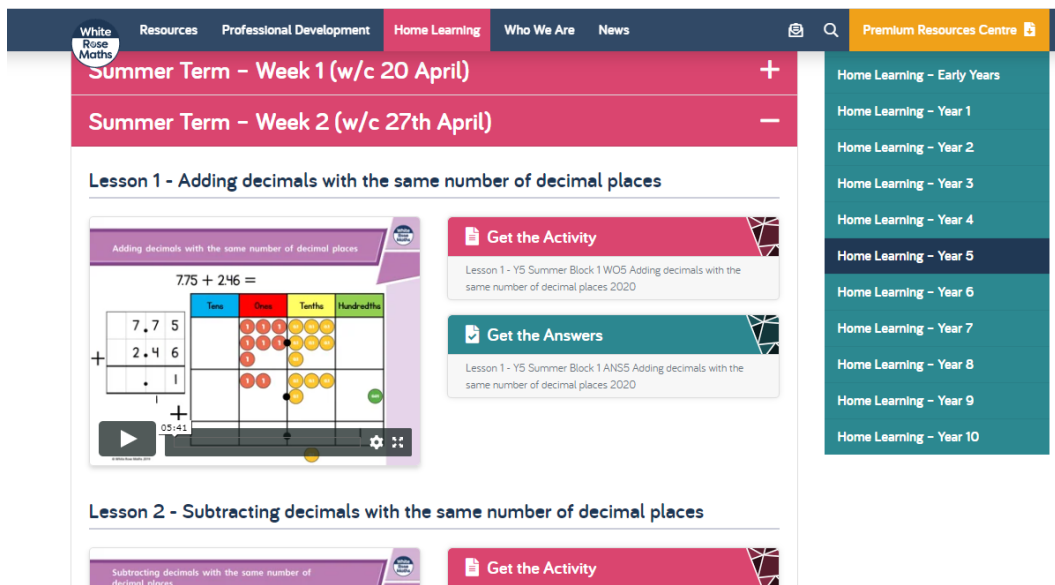

Mr Cox's, Miss Fegan's and Mrs Elwell's Maths Groups

This week, we are adding and subtracting decimals above 1. Like last week, for Lesson 5, there are some Maths challenges to do. Again, some of the challenges are quite tricky! Choose which you would like to do and just do your best.

Use this link:

<https://whiterosemaths.com/homelearning/year-5/>

Click on the 'Summer Term – Week 2 (w/c 27 April)' tab. It will look like this:

The screenshot shows the White Rose Maths website interface. The top navigation bar includes 'White Rose Maths', 'Resources', 'Professional Development', 'Home Learning', 'Who We Are', 'News', and 'Premium Resources Centre'. The 'Home Learning' tab is active, showing a dropdown menu with options for 'Summer Term – Week 1 (w/c 20 April)' and 'Summer Term – Week 2 (w/c 27 April)'. The 'Summer Term – Week 2 (w/c 27 April)' tab is selected, displaying 'Lesson 1 - Adding decimals with the same number of decimal places'. The lesson content includes a video player showing a number line and a place value chart for the addition $7.75 + 2.46 =$. There are also 'Get the Activity' and 'Get the Answers' buttons. A sidebar on the right lists 'Home Learning – Year 1' through 'Home Learning – Year 10', with 'Home Learning – Year 5' highlighted.

As with the previous weeks, you have a video to teach you, a worksheet to complete and the answers to check. There are 5 lessons – work at whatever pace suits you; please only do the week that you have been asked to.

You can practise each lesson as much as you like, but around 30 minutes on the lesson and then 5/10 minutes work on the links below is a good guide! 😊

If you have any questions, you can get in contact with Mr Cox or Miss Fegan via Showbie.

Game

There is a gaming template below. We have included some ideas of what you could do with it:

1. Play Connect 4 with a family member. Can you get four in a row whilst blocking them from getting 4?
2. Who can be the first to get to the other side? Maybe you could add a timer for each question.
3. Who can fill the most spaces?
4. Who can create an image?
