

😊 Happy Home Learning 😊

Below are the recommended activities to be completed each day of w.c. 18th May. As always **none of the activities are mandatory**, however they are the sorts of things we would have been doing with the children this week had they been in school, so we have shared these with you to try and ensure that your children don't fall behind in their learning. Highlighted in yellow are the names of any of the resources needed for each activity that are available on Tapestry to download. This timetable is just here as a guideline for how long to spend on each activity, as speaking to lots of parents has suggested that this would be useful, but of course feel free to adapt it to a routine that works best for your family.
