

Zog's Melting experiment

Zog wants to do an experiment to see how impressive his dragon breathe is. His breathe gives off the same heat as a hairdryer. Take a look at these items that we are going to try and melt. Make your prediction whether you think they will melt with the heat from the hairdryer (Zog's breathe).

Item	It will melt	It will not melt
Chocolate 		
Wax crayon 		
Marshmallow 		
Key
