Whole School Approach:

High quality first teaching and additional interventions are defined through our continuous dialogue across the school contributing to our provision mapping approach. These documents help us to regularly review and record what we offer EVERY child or young person in our care and what we offer additionally. These discussions also serve to embed our high expectations among staff about quality first teaching and the application of a differentiated and personalised approach to teaching and learning. We make it a point to discuss aspirations with ALL our learners.

Underpinning ALL our provision in school is the **graduated approach** cycle of:

All teachers are responsible for every child in their care, including those with special educational needs. **(Reference: Teaching & Learning Policy)**

Assess:

- Initial concerns regarding a child who may require extra support will come from the class teacher and/or parents / carers. Following these concerns, the child's needs will be assessed and closely monitored and enable the school to work collaboratively with parents / carers and other professionals to ensure that support is given whenever needed.
- Class teachers continuously make assessments of all children and carefully track progress. If any gaps in learning appear; a child faces barriers to their learning; or they are making minimal or no progress, additional support will be put into place.

Plan:

- Collaboration with the child, parents / carers and other professionals will provide targets and support will be identified which is focused on the outcomes for the individual child. The planning process will also identify how outcomes are to be achieved.

may include: additional learning materials or special equipment; individual / group support; access to specific

interventions outside of classroom time; access to LA support services, e.g. Educational Psychology, Speech and Language Therapy.

Do:

- Classroom support and targeted activities that will enable the child to meet their targets will be carried out by the classroom teacher and teaching assistant.
- Outcomes of any support will be closely monitored by the classroom teacher and SENCo.
- Support will be delivered over a set period of time (usually for at least 6 weeks) and adapted or altered to ensure maximum impact.

Review:

- Outcomes are reviewed depending on the timescale given to the individual child or half termly (whichever comes first), ensuring that additional support remains focused and specific.
- Formal parents' meetings are held termly in order to further discuss support and ways forward.
- A new cycle of support (if necessary) is then drawn up.

SEND Needs:

Children and young people's SEND are generally thought of in the following four broad areas of need and support:

1. Communication and interaction

- Speech and Language therapy delivered by a teaching assistant on a one-to-one basis
- One-to-one block of speech therapy, delivered by speech and language therapists
- Communication friendly approach to learning in EYFS (e.g. choices, talking circles)
- Makaton

2. Cognition and learning

- Educational Psychology consultations and recommendations
- Read, Write, Inc. One-to-one targeted interventions
- Small group delivery of Read, Write, Inc.
- Speedy Reads
- Visual timetables
- Precision teaching (e.g. common exception words, numbers)
- Workstations to improve concentration and focus

3. Social, emotional and mental health

- Educational Psychology consultations and recommendations
- Well-being one-to-one support
- Break-out spaces

- *Playground friends*

4. Sensory and/or physical needs

- *Occupational therapy (Madeleine Portwood programme, 'Funky Fingers' small group intervention)*
- *Sensory equipment (e.g. ear defenders, play trays, sensory feedback cushions)*
- *Specialist equipment (e.g. pencil grips, chewable pencil toppers, fidget toys, cutlery adaptations)*
- *Physiotherapy programme (one-to-one delivery)*
- *Adaptation of space and equipment for physical needs*

(Reference: Special Educational Needs and Disability [SEND] Policy 2021)

As of September 2021, we had 23 children or young people receiving some form of SEN Support, two of whom have an Education, Health and Care Plan (EHCP).

We have internal processes for monitoring quality of provision and assessment of need. These include identifying children not making adequate progress through professional conversations; whole school termly pupil progress meetings to discuss all children; regular monitoring of interventions and their delivery; training for delivery of specific interventions (either in-house or externally led); liaison with external agencies to review progress towards targets (e.g. Speech and Language therapy); an allocated slot on the weekly staff meeting agenda to discuss any concerns and / or share ideas and support colleagues.

Consulting with children, young people and their parents

Involving parents and learners in the dialogue is central to our approach and we do this through:

Action/Event	Who's involved	Frequency
Pupil/parent voice-IOP/EHCP reviews	<ul style="list-style-type: none"> - Children with an IOP or pupils with an EHCP. - SENDCo - Class teacher/one to one teaching assistant 	Termly
Pupil voice – informal conversations	<ul style="list-style-type: none"> - Children accessing interventions - SENDCo - Intervention group leader 	Continually throughout the academic year
Parents / carers meetings	<ul style="list-style-type: none"> - Parents / carers of children listed as SEND Support or pupils with an EHCP. - SENDCo 	Termly (with informal conversations and/or meetings on-going throughout the academic year)
Parent voice – questionnaire	<ul style="list-style-type: none"> - Parents / carers of children listed as SEND Support or pupils with an EHCP. 	Yearly
Parents/carers Speech and Language therapy review meetings	<ul style="list-style-type: none"> - Parents/carers of children with a speech and language plan 	Termly invitation Weekly invitation (if child is accessing block of therapy delivered by external service)
Parents/carers Early Help assessments	<ul style="list-style-type: none"> - SENDCo - Pastoral team - Parents/carers 	As and when necessary
Parents/carers Early Help reviews	<ul style="list-style-type: none"> - SENDCo - Pastoral team - Parents/carers 	At least termly once an assessment has been made and for as long as is deemed necessary

	- External agencies (where required)	
Education, Health and Care Plan review	- Parents / carers of children with an EHCP - SENCo External agencies (where required)	Annually

In order to maximise the potential for liaising and consulting with children and their parents / carers, as from the academic year 2020-2021, termly individual outcome plans (IOPs) will be sent home and shared with parents.

Staff development

We are committed to developing the ongoing expertise of our staff.

The designated Special Needs Coordinator for our school is Mrs Sue Waters. She has completed the National Award for SENCo from Bishop Grosseteste University.

This year, the following training has been completed:

- All teaching staff accessed training on SEND provided by the schools SENCo to recap on the Code of Practice and systems in place within school.
- All staff have accessed FGM, Prevent, human trafficking and sexual exploitation training, provided by the Pastoral Manager.
- Members of staff have completed an Understanding Autism course.
- Other members of staff have completed Children's Mental Health, Behaviour that Challenges, Mental Health First Aid and Makaton courses.
- The SENCo has attended EHCP Hub training.
- Other staff have attended an Emergency First Aid course to renew their certificate.
- The SENCo has attended termly network meetings and good to great meetings and has fed back relevant information into our everyday practice.
- Members of teaching staff, support staff, admin staff and the Head Teacher have had Team Teach training and all hold up-to-date certificates.
- The SENCo and Pastoral Manager are our Mental Health Champions and have accessed mental health and CAMHS training.

Further staff training around ASD, ADHD and dyslexia will be planned for the upcoming year, as there has been an influx in diagnosis around these conditions over the last year.

Staff deployment

Considerable thought, planning and preparation goes into utilising our support staff to ensure children achieve the best outcomes, gain independence and are prepared for adulthood from the earliest possible age.

This is achieved in different ways, such as:

- Supporting pupils on a one-to-one basis
- In class small guided group support
- Social, emotional and mental health support through the pastoral team, which includes a Pastoral Manager and one learning mentor

- Leading one-to-one or small group interventions
- Specific support staff identified to lead speech and language and occupational therapy interventions in order to maintain consistency of approach

Finance

This year all children are supported within school and this is financed from within the usual school budget.

Within school we have a range of skills and strengths across the staff team. In order to fully support all children, we work closely with a range of professionals from external agencies. This year these have included:

- Educational psychologists
- Speech and language therapists
- Occupational Therapists
- Physical Disability team
- Complex Behaviour Support Team
- Autism Spectrum Education Team (ASET)
- School Nursing Team
- St Luke's outreach worker
- Local providers, e.g. Panda Play

School Partnerships and Transitions

Our academic assessment for children and young people with special educational needs is moderated through our cluster of schools and neighbouring partners.

This year, we worked with our feeder partner(s) to welcome one child and young people with special educational needs or disabilities and we supported three children and young people with transition to the next phase in education or to a different school.

Our approach involved:

- Meetings with the feeder partner SENCo
- Meetings with the SENCo(s) of the next phase / different school
- Exchange of pupil documentation
- New to school parent's meeting (feeder school)
- Individual pupil transition timetables
- New to school parental information and views sheet (feeder school)

We closely monitor children and young people's destination data.

Complaints

Our complaints procedure is as follows:

- Complaints should be made in the first instance to the Class Teacher who will inform the SENCo.
- The SENCo will then endeavour to resolve this complaint alongside parents / carers.
- If parents remain dissatisfied they should speak or write to the Headteacher.

responsibility for SEN.

This year we had 0 number of complaints that were dealt with.

Further information regarding complaints can be found in the 'WIS Complaints Policy' on our school website.

Challenges this year

This year challenges for our school have included:

- Staffing due to unforeseen staff illnesses and this has impacted on the stability of provision for some children and the progress they have made.
- COVID19 has effected the progress which some children have made over the last two academic years.
- Developing strategies to support and manage children presenting with specific learning difficulties, without additional funding attached.
- Ensuring that in ALL classes the teacher provides interventions to SEND and lower ability children and not just the teaching assistants. This maintains rigour and that these children are being supported by the most qualified adults.
- Staff around training around specific needs.
- The vast rise of SEND pupils (especially SALT, ASD, ADHD) referred by parents as a result of COVID19.

Further development

Our strategic plans for developing and enhancing SEND provision in our school next year include:

- Liaise termly with the business manager with regards to SEND funding arrangements in order to assess the impact of provision.
- Develop a new support plan to replace the current IOPs, which is easier to follow and will follow a child throughout their time in school.
- To continue to monitor that individual outcomes are being accessed across the curriculum within the classroom, as well as through interventions.
- New Small Steps assessment to be introduced from Autumn Term to identify the exact progress of SEND pupils and this will be shared with parents. This data will be used effectively to highlight areas of strength and areas to develop for SEND.
- Continue to liaise with teachers in regards to SEND training. Implement appropriate training/outside agencies around ASD, ADHD and dyslexia as these are areas that are becoming more common.
- The Federation SEND team will continue to meet regularly to discuss SEND children.
- Continue to ensure that all staff know where to access information on the medical needs and SEND needs of children in school (ScholarPack/SharePoint) and continue to ensure new procedures are implemented re: administering medication at school.
- Continue to ensure that work is accessible to all SEND pupils but also provides challenge.
- Continue to access relevant CPD and attend meetings in regard to updates (Good to Great, Action and Reflection, Network Meetings).

Relevant school policies underpinning this SEND Information Report include:

- Special Educational Needs and Disability (SEND) Policy
- Supporting Pupils at School with Medical Conditions Policy
- Accessibility Plan
- Equality and Diversity Plan
- Equality Policy 2016

- Children & Families Act 2014
- Equality Act 2010
- Mental Capacity Act 2005
