**Petition to bring the 2020 Global Climate Summit to London**

Climate change is a serious and pressing concern. I know that many Redditch residents care deeply about our environment. The UK has a leading role to play in tackling climate change. However, this also needs urgent attention from the Governments of the world.

The 2020 Global Climate Change Summit (COP26) will be a crucial moment for the future of our planet. The UK is bidding to host this conference and a decision will be made soon.

I would therefore urge you to sign the petition overleaf so that we can send a clear message to Governments all across the world that the UK is ready to step up and take leadership.

Please return this petition to me as soon as possible, and **no later than Friday 14th June 2019.**

**Rachel Maclean MP**

“To the House of Commons,

The petition of the residents of the constituency of Redditch County,

Declares that climate change is a serious and pressing concern and needs urgent attention from the Governments of the world; further that the UK has a leading role to play on tackling climate change in the future.

The petitioners therefore request that the House of Commons urges the Government to ensure the UK hosts the upcoming COP 26 Climate Change Conference in 2020.

And the petitioners remain etc.”
