Holistic Approach

Holistic approach

In the conversations we talk about life as a whole.
We don't see their abuse as a isolated part of their life.

Difficult because we aren't in the context where the abuse take place.

Difficulties

1. Unknown imprisonment time
Important to finish each session properly
2. Hidden agenda
Motivation arises from different things + opportunity to plant a thought
3. Security always comes first
A condition, but we try to challenge the decisions
4. Difficult to get through to municipal treatment / released to later imprisonment
Try to prepare them for contact
5. Anonymous treatment
A condition, but sometimes it is a positive thing
