

PRODUCT OVERVIEW

Infor SunSystems combines technological innovation and usability with a depth of functionality achieved through decades of practical application. Delivering real-time financial, operational, and reporting analysis, it's a comprehensive, global financial management system with unparalleled adaptability - delivered at an extremely competitive cost of ownership.

TURN INFORMATION INTO INSIGHT

Take control with the unified ledger in Infor SunSystems, which gives you fast, easy access to smart transactions that deliver not just data, but detailed information with context that you define.

INTEGRATE INFORMATION

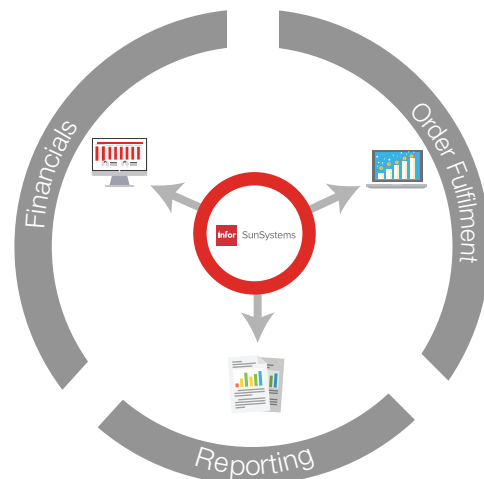

Imagine having all your ledger data combined in one place, whether it's from your general ledger, sales and purchase ledger, or even a user-defined ledger—without having to wait for batch updates or reconciliations. You'll be able to close your books faster, resulting in lower costs and greater efficiency with a unified ledger.

IMPROVE CORPORATE PERFORMANCE

Streamline reporting and planning cycles with a single, integrated environment. Plus, make it easy for users and stakeholders to understand how your business is performing with immediate reporting and analysis. Decision makers will get immediate access to the integrated finance and operational information they need to better manage their business.
