Partnership Programme between Salumanus and ISPA UK from February 2019 to December 2020

Salumanus, a Polish distributor and provider of network infrastructure solutions, joined ISPA UK's annual partnership programme in February 2019 and renewed it until December 2020.

For 2 years, Salumanus has been an ISPA member, sponsored our events, attended our member meetings, regularly engaged with members, provided content for our monthly newsletters and gained visibility on our website partners' page.

Salumanus' approach to ISPA members always was professional, proactive and respectful.

Salumanus always delivered high-quality presentations to ISPA members on their solutions, be it at our annual ISPA Conference or at the more recently launched ISP Business Model Summit.

Salumanus' senior management team also attended the leading internet industry event, the ISPA Awards Ceremony, in 2019 at the Sheraton Grand London Park Lane Hotel. Krzysztof Podgórski, CEO of Salumanus, presented the Best Business ISP category and announced Hyperoptic as the winner.

Salumanus also regularly provided ISPA with relevant content to include in our monthly newsletters in order to inform our members about any innovations that could benefit them.

ISPA UK wishes Salumanus Ltd. all the best in its development in the UK market, and looks forward to future collaborations.

Sincerely,

Andrew Kernahan
Head of Public Affairs
ISPA UK
