THE COACHING

Kelly Bridges and her team are licensed English PGA teaching professionals with additional qualifications. Coaches use the practice facilities at both courses and the state-of-the-art Trackman performance studio at Broadstone Golf Club.

Coaching sessions involve skill development, technique correction and self-assessment. Trackman 4 technology provides detailed player feedback, including swing analysis.

Players progress through skills tests, drills and learning effective on-course shot management. The coaching programme is supported by workshops on athlete development.

Each week, players play at least one supervised 18-hole round at Broadstone Golf Club and a tournament on Canford's 9-hole course.

THE ENGLISH

ACCELERATED LEARNING

13-14 hours a week of classroom-based lessons

Suitable for all English language levels, except for native speakers

The English curriculum is based on the CLIL approach used in top schools worldwide and is designed to enhance students' use of English in sport and the wider world. Teachers live on-site and all our staff create an immersive English environment by ensuring students communicate in English throughout the camp.

On the first day, students take an English test and are divided into CEFR level classes within their age group, ranging from A1 to C2 (beginner to advanced). Teachers cover general English and sports-related English in their lessons. Using the topic of sport engages students with a common interest in the classroom and equips them with useful vocabulary for their coaching sessions. Our lessons are fun and interactive, using a combination of traditional classroom techniques, active participation and project work.

At the end of each week, students get an English progress report and completion certificate, along with advice from their teacher on how to continue improving their English at home.
