Approving Body: Local Management Board

## **Public Sector Equality Duty**

The Equality Act 2010 replaced all previous discrimination law. It has simplified the law and extends protection from discrimination in some areas.

School must adhere to the following:

- Protection against discrimination is extended to pupils who are pregnant or who have recently given birth, and pupils who are undergoing gender reassignment.
- It is now unlawful for employers to ask health related questions of applicants before job offer, unless the questions are specifically related to an intrinsic function of the work.
- New positive action provisions will allow schools to target disadvantage experienced by pupils with particular protected characteristics.
- It is now unlawful to victimise a pupil for anything done in relation to the Act by a sibling or parent.
- The Act will extend the reasonable adjustments duty to require schools to provide auxiliary aids and services to disabled pupils.
- The previous specific duties on schools have been combined into the new Public Sector Equality Duties (PSED)
- There is a requirement to have an Access Plan to improve access for disabled pupils

### **Protected characteristics:**

It is unlawful for a school to discriminate by treating individuals less favourably because of their:

- Sex
- Race
- Disability
- Religion or belief
- Sexual orientation
- Gender reassignment
- Pregnancy/maternity
- Marriage and Civil Partnership

Children and young people under the age of 18 have limited protection under the Age characteristic. It is lawful to treat people differently because of their age in circumstances where the law allows, or requires, people to be treated differently because of their age.

### **School Context**

Darlington is located at the southern tip of the North East of England region. The Borough is regarded as the 'gateway' to the Tees Valley and the wider North East region of England, lying adjacent to the Yorkshire and Humber region, with which it shares a boundary, formed by the River Tees.

Darlington is a historic market town, surrounded by open countryside. The town's development has been closely associated with the railway age and associated manufacturing. Darlington's population is expected to rise steadily to 110,771 by 2021 from its current 105,000. There are currently 15,478 children in primary and secondary schools (Spring 2014 census) and this number is projected to rise until at least 2020. Darlington saw the 4th fastest growth rate in the child population in the whole of the North of England between 2010 and 2011.

About three quarters of the working population of the Borough have jobs based in Darlington. There has been a significant change in the structure of the Darlington economy. Employment in manufacturing has declined dramatically (to 9.2%), but in contrast, the service sector has grown strongly and now accounts for almost 80% of jobs in Darlington. The public sector, including local government, national government and health, is a major employer. The November 2013 NEET rate in Darlington is 6.8%, a decrease from March 2013. Of the 1,105 18-24 year olds claiming Job Seekers Allowance, 195 of them have been claiming for over 12 months.

There are marked contrasts in the life chances and quality of life of people in the Borough, according to where they live. According to the Index of Deprivation 2010, Darlington has some of the most deprived areas of England, and is ranked 75th most deprived local authority out of 326 in England. 31% of the population live in seven wards that are amongst the 10% most deprived in the country, whilst about 7% live in two wards that are amongst the least deprived nationally. There is a 13-year difference in life expectancy between the best and worst wards, and unemployment varies from 12.2% for the inner Central ward (March 2010), to 1.7% in the suburban Hummersknott ward.

The economic downturn has had a disproportionate effect on the least well-off and more vulnerable people in Darlington. National evidence and local analysis, referenced on page 17, shows that inequality gaps have been widening. Since 2009 unemployment has risen, and the difference in unemployment rates between the most and least affluent areas has widened. Youth unemployment in particular has increased significantly. The number of children living in poverty in Darlington is above the national average. The gaps in educational attainment and qualifications between people have widened. People are also affected by the Government's welfare reforms and reductions in funding for public services. The impact on funding for the Council has been particularly severe and will accelerate through the lifetime of this plan. Consequently the approach to service provision must be rebalanced, with a shift in emphasis from the traditional top-down provision of welfare services towards 'home-grown' affordable solutions that are tailored to local needs

### **St Augustine Profile**

St Augustine's is a 4-11 Faith school that receives students with a wide range of physical, educational, emotional and spiritual needs. St Augustine's is an average size primary school which serves mainly Catholic families who come mostly from the south and west of Darlington, a locality where socio-economic characteristics range widely from well above to well below average. The number of pupils eligible for free school meals is below average. Most pupils are from a White British heritage, but a small number from Poland and Lithuania have recently joined the school and are learning to speak English. The proportion of pupils with learning difficulties and/or disabilities, including those with a Statement of Special Educational Need, is below average. In recognition of the school's work, it has the Artsmark Gold award, Investors in People award, Healthy School award and the Local Authority Inclusive School award.

## Basic Characteristics for Pupils

Spring School Census January 2018

**Protected Characteristic: Sexual Orientation**

No data about the sexual orientation of pupils, parents or staff is collected or held by the school. Were it to be communicated to the school regarding a pupil, it would be recorded in the child's affective file.

**Protected Characteristic: Marriage and Civil Partnership**

When information about changes in marital status or home circumstances is communicated to school, it is recorded in the schools affective file. Any changes to contact details are recorded on SIMS.

No data is collated by the school about staff or parents' marital status, apart from names given for home contact and information about whether letters home or reports are to be duplicated and sent to two addresses.

**Protected Characteristic: Gender Reassignment**

No data is collected by the school about gender reassignment and the pupil or staff population.

## **Collecting and analysing equality information for pupils at St Augustine's**

St Augustine's is an inclusive school and we aim to use the curriculum and learning to encourage all individuals to fulfil his or her potential. We collect and analyse the following equality information for our pupils:

- Attainment levels
- Attendance levels
- Exclusions (internal and external)
- Participation in extra-curricular activities & school visits
- Behaviour incidents (Including Racist Incidents)

## **Collecting and analysing equality information regarding employment and Governance at the St Augustine's**

St Augustine's is committed to providing a working environment free from discrimination, victimisation and harassment where staff are valued for their ability and skill to provide the best opportunities for pupils. We aim to recruit an appropriately qualified workforce that is representative of all sectors of the community in which we work. We collect the following profile information for our staff:

- Applicants for employment
- Staff profile
- Attendance on staff training events
- Disciplinary and grievance cases
- Performance Management

## Gender Pay Gap Reporting

We are an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. This involves carrying out six calculations that show the difference between the average earnings of men and women in our organisation.

We are required to publish the results on our own website and a government website. We will do this within one calendar year of 31 March. <sup>1</sup>

### Carmel Education Trust's Gender Pay Gap data as at 31 March 2018 is:

<b>The mean gender pay gap</b>	18.1%	
<b>The median gender pay gap</b>	24.3%	
<b>The mean bonus gender pay gap</b>	n/a	
<b>The median bonus gender pay gap</b>	n/a	
<b>The proportion of males and females receiving a bonus payment</b>	n/a	
<b>The proportion of males and females in each quartile band</b>		
	<b>Female</b>	<b>Male</b>
<b>Lower Quartile Band</b>	86.9%	13.1%
<b>Lower Middle Quartile Band</b>	79.4%	20.6%
<b>Upper Middle Quartile Band</b>	76.9%	23.1%
<b>Upper Quartile Band</b>	67.7%	32.3%

---

<sup>1</sup> Excluding St Bede's Catholic Academy, Darlington, Our Lady of the Most Holy Rosary Catholic Academy and St Joseph's Catholic Academy.

Two year comparison for the proportion of males and females in each quartile band

Two year comparison of median and mean gender pay gap

Our data shows that within Carmel Education Trust there is a higher proportion of women in all quartiles. In the lower and lower middle quartiles in 2018 the proportion of men increased compared to 2017 in the upper middle and upper quartiles in 2018 the proportion of females increased compared to 2017.

Overall the mean gender pay gap has reduced from 22.4% in 2017 to 18.1% in 2018 and the median gender pay gap has reduced from 36.2% in 2017 to 24.3% in 2018

The Gender Pay Gap is a high level, non-adjusted indicator of male and female earnings which is affected by workforce distribution and make-up. The majority of staff are in the lower pay quartiles which have traditionally been over represented by females in occupations including cleaning, catering, lunchtime supervision, administration and education support staff.

Carmel Education Trust has structured Pay Scales that correspond to School Teachers Pay & Conditions and Local Authority Pay Scales and are not gender specific. We are committed to promoting equality and we aim to recruit an appropriately qualified workforce that is representative of all sectors of the community. In April 2019 our new support staff pay spine will commence at £9.00 per hour and moves us away from being a minimum wage employer.

Carmel Education Trust supports staff in a number of ways including:-

- Training for all staff
- Equality of opportunity
- Commitment to professional development and career progression
- Encouraging diversity in roles that are underrepresented.
- Developing Family friendly policies

We believe that the overall gender pay gap reflects workforce composition rather than pay inequalities. Through our Equality Objectives we will seek, wherever possible, to encourage participation and recruitment to underrepresented roles.

### **Review of Equality Objectives**

Following a review and analysis of the latest data, the following equality Objectives have been identified:

- To increase progress and attainment of disadvantaged, particularly in reading and mathematics
- To close gender gap, especially in literacy, with boys attainment below national boys, but girls in-line
- To improve Girls progress in Key Stage 2 Mathematics
- to promote British Values and implement the Prevent Duty
- to anticipate and support the needs of incoming pupils with English as an Additional Language.
- to extend changes to the physical environment to meet the needs of pupils with hearing impairment.
- To support the higher attainment and progress of disadvantaged pupils in Reading.
- To encourage participation and recruitment to underrepresented roles.

### **Review**

Equality information will be updated annually and published on the School web site. Progress against Equality Objectives will be reviewed by the Local Management Board annually and updated every 4 years.
