

CRYPTIFY CALL

SCREEN CAST FOR CONFERENCE CALLS

Overview

In addition to Cryptify's Government grade secure voice and messaging, Screen Cast provides enhanced functionality, productivity and usability.

Screen Cast enables any participant, when in a Cryptify Call conference, to share the content of their active page with all other participants in the call.

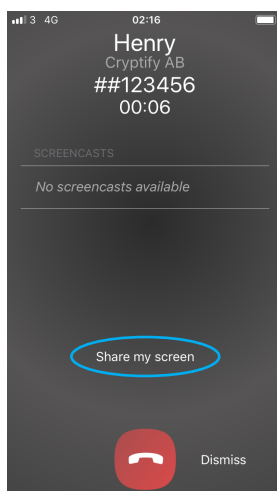

Features

- Screen share presentations, documents, images etc.
- Multiple simultaneous participants.
- Cross platform support.
 - iOS
 - Android
 - Windows PC
- Allows screen sharing to assist with remote support.

Host a PowerPoint presentation, discuss a document or share a creative design idea in a secure Cryptify conference call

Step 1.

A user shares their screen by offering a Screen Cast

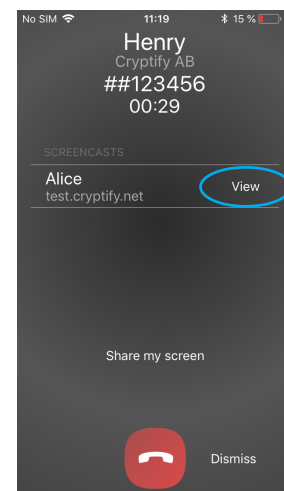

Step 2.

Participants are notified of an available Screen Cast

Step 3.

Participants select the Screen Cast they wish to view

N.B. Screen Cast is only available from within a conference call
