

NGD CRYSTAL 40, NGD CRYSTAL 50

RF DUAL PEDESTALS

Powerful RF (Radio-Frequency) two-antenna system designed with a focus on strong performance in the detection of adhesive labels as well as reliability. This line of NG (Next Generation) Dual Systems is suitable for any environment.

The NG Dual system excels in wide entrances where it outperforms most of its competitors, and the clear acrylic panel allows it to blend seamlessly into modern or premium retail spaces, the ideal fusion of function and design.

A fully equipped security solution is fitted with foil-bag detection, connected to the StoreMonitor cloud for easy data collection and maximum security.

In addition to these powerful features our systems are  **ECO** MODE enabled. This power-saving tool helps you minimize electricity consumption which increases the lifespan of the system, saves costs, and is environmentally friendly.

STOREMONITOR COMPATIBLE 

Features & options:

- Remote maintenance and diagnostics
- StoreMonitor connectivity
- Metal detection
- Decoration light
- Additional alarm output
- Tag too close indication
- Visitor counting
-  **ECO** MODE enabled systems

For retailers facing losses due to professional shoplifters equipped with foil-lined bags, the crystal pedestal line can be upgraded with our integrated NG METAL SPY, providing the maximum protection that you can expect from an article surveillance system.

Remote connectivity with our eComm module ensures that our systems are not only easy to install but can also be serviced and maintained remotely with fast response and without unnecessary travel costs.

The **premium crystal acrylic** panel is manufactured from the highest grade, preventing discoloration and warping. The included multi-colored LED lights can be configured to not only display the alarm colour that you wish, but also to light the antenna permanently in an attractive glow.

When connected to our Storemonitor cloud analytics all essential data from visitor counters, alarm management and system operation are available for further processing. You can evaluate your store or system performance in advanced graphs and overviews or set up reports to be automatically sent to your mailbox or uploaded to your existing system.
