Objectives And Policy

The Portfolio aims to provide capital growth by investing in a diversified range of assets and markets worldwide. The Portfolio is benchmarked against the Investment Association Flexible Investment sector. The Portfolio can hold up to 100% in equities and normally will have a volatility relative to the UK equity market of between 65% and 90%.

The Portfolio may invest up to 100% of its assets in collective investment schemes, exchange traded funds, closed ended investment schemes and real estate investment trusts, which themselves invest worldwide in any of the following: equities; bonds; and alternative assets. Alternative assets may include funds that use absolute return strategies or funds that invest in real estate, commodities or private equity. The Portfolio may also invest directly in equities, bonds and warrants, and hold cash. The Portfolio may use derivatives with the aim of reducing risk or managing the fund more efficiently.
