

We are a small but talented team primarily based in Anglesey, North Wales. Although we reside in a remote and beautiful location we have a global mindset and have established very close relationships with packers and customers in Europe, North America, Australasia and Asia.

We have experts in agronomy, food processing, chemistry, law, logistics, and marketing. We have a deep understanding of organic and conventional growing and processing. We have decades of experience with the uses and potential of our product portfolio. Our products and services have found application in a variety of foods from ready-to-eat consumer products to raw material ingredients to bespoke items, such as fruit preparations for dairy and bakery applications. We look forward to working with you in future.

We supply a wide range of frozen and dried fruit to industry, retail and foodservice worldwide. We have a very flexible operation and can develop new products quickly based on customer requirements. We are BRC certified and produce, pack, and ship to order to give the longest possible shelf life. Our speciality is fruit from China but we also trade many products from other origins and have excellent relationships with several co-packers.

Our dried berries are typically infused with apple juice concentrate without added colour, the infusion gives a better mouth feel and flavour than straight-drying the fruit. Stone, pome and tropical fruits can usually be straight-dried with no infusion because of their higher brix.

About us

In 2000 Berry Ltd, together with our Chinese partner Flying Dragon Ltd, established the joint venture farming and processing company Dragon's Garden. Dragon's Garden is located in Yifengdian, Shandong Province, and is jointly managed by the Berry and Wang families. Berry Ltd is the majority shareholder, financier and marketing agent for the joint venture.

We pride ourselves on the systems and processes we have in place to ensure that the quality of our products is never compromised. If you are looking for a reliable, hardworking and trustworthy packer skilled at supplying a wide range of market-leading products you need look no further.

20 years of organic land stewardship. We are Soil Association and EcoCert Certified.

Water treatment system returns waste water from processing to our farms as clean irrigation water.

Our plant is hydrogen powered. Meaning no carbon emissions and the only waste product is water.

Our staff are our greatest asset. We are an equal opportunity and living wage employer.

Our products are available year round but order at least one month before production seasons start for guaranteed availability.
