

## Advanced Flux System

Non-Toxic formulations that are not only cleaner for the environment and operators but also have a better cleaning action of metal surfaces compared to standard TOXIC fluxes found in the market today. In conformance with REACH "Toxicity" guidelines and "European Commission - Joint Research Center" ([http://ecb.jrc.ec.europa.eu/esis/.](http://ecb.jrc.ec.europa.eu/esis/))

# CleanTech™ Flux Coated Rods

## CleanTech™

is the development in fluxes. Our CleanTech™ range of fluxes have eliminated toxic components, while at the same time improving the brazing quality. CleanTech™ is cleaner for the environment and for your parts.

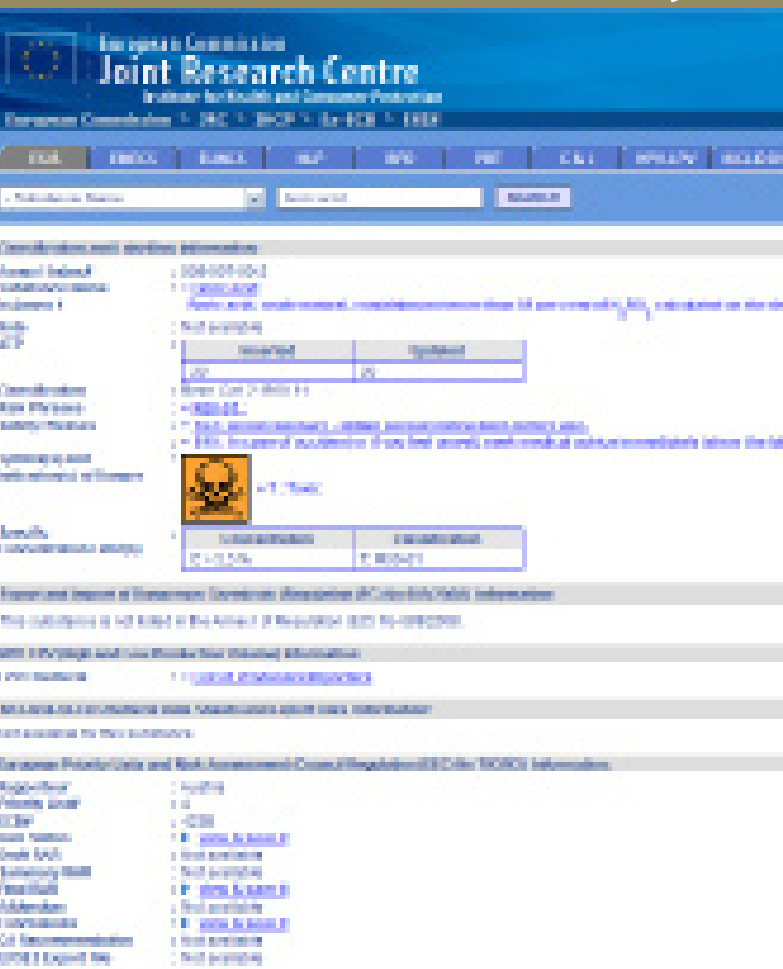

**CleanTech™ Non-Toxic and  
Boric Acid-Free Fluxes  
100% Made in Italy**

**Tomorrows  
Technology  
TODAY!!**

## Standard Flux Toxicity

## CleanTech™ Advantages

- Safer for people and safer for the environment.
- Meets the most current REACH classifications for Toxicity.
- Eliminated the need for special handling, training and documentation for toxic substances.
- Promotes total capillarity in the joint.
- Resists overheating.
- Cleaner joints and cleaner environment everytime.

## CleanTech™ Range

- CleanTech™ XLT - Lowest Temperature for brazing on steels, stainless steels, copper, brasses and carbides.
- CleanTech™ SHT - Medium-High Temperature for brazing on steels, stainless steels, copper, brasses and carbides.
- CleanTech™ XHT - Very High Temperature for brazing on steels, stainless steels, copper, brasses and carbides with EXTRA CLEANING POWER.
- CleanTech™ X85 - High Temperature brown flux or carbide tools.
