## effective decisions & strategic thinking

What do you want to achieve or avoid? The answers to this question are objectives.

How will you go about achieving your desired results? The answer to this you can call strategy.

A strategy is the pattern or plan that integrates an organization's major goals, policies, and action sequences into a cohesive whole. A well-formulated strategy helps to marshal and allocate an organization's resources into a unique and viable posture based upon its relative internal competencies & shortcomings and anticipated changes in the environment.
