PROCEEDING, AND FOR SUCH PURPOSE, THEY MAY NEED TO ENSURE THAT A VERBATIM RECORD OF THE
PROCEEDINGS IS MADE, WHICH RECORD INCLUDES THE TESTIMONY AND EVIDENCE UPON WHICH THE
APPEAL IS TO BE BASED.
PART A. BASIC INFORMATION -PLEASE READ BEFORE COMPLETING

A variance is a quasi-judicial action taken by the Board of Adjustment and Code Enforcement that alters a specific requirement of the City of Williston Land Development Regulations.

A variance cannot be used to permit a use or activity not permitted by the Land Development Regulations and a variance cannot be used to permit a use or activity expressly prohibited by the Land Development Regulations.

Generally, the Board of Adjustment must find that there are special circumstances that exist that are peculiar to the land, structure, or building that do not result from actions of the applicant or property owner. Personal hardships are not acceptable justifications for variances to the Land Development Regulations.

Once an application for variance has been submitted and the application fee of $360.00 has been paid, the Planning and Zoning Staff will begin processing the application. An applicant should expect a hearing to be held to consider their application within four to six weeks.

The applicant will be notified of any public hearings or special meetings held in regards to their application.

Variances to the subdivision regulations will be heard by the City Council and not the Board of Adjustment.

No written petition by an owner of real property for a variance for a particular parcel of property, or part thereof, shall be filed with the land development regulations administrator until the expiration of 12 calendar months from the date of denial of a written petition for a variance for such property, or part thereof, unless the board of adjustment specially waives said waiting period based upon a consideration of the following factors: 1. The new written petition constitutes a proposed variance different from the one proposed in the denied written petition. 2. Failure to waive said 12-month waiting period constitutes a hardship to the applicant resulting from mistake, inadvertence, or newly discovered matters of consideration.
PART B. APPLICANT AND OWNER INFORMATION  (please complete legibly)

Staff Report - Variance

Project: V18-02  Date: April 17, 2018

Background

On April 2, 2018, the City received an application for a variance to the side yard requirement found in Section 60-217 of the City of Williston Code of Ordinances. The application was filed by Crystal Curl for the property located at 315 SE 5th Terrace, also known as parcel 0577900000, also known as Lot 14, Block 1, Oak Villa lying in Section 6, Township 13 South Range 19 East Levy County Florida. The parcel is approximately .14 acres in size.

The applicant requests that the yard requirement be varied from 15 feet to 0.9’ feet to accommodate the existing structure. The original building was an approximate 25’x28’ footprint and was built in the 1960’s (prior to the land development regulations) A 13’ storage area was added on the north side of the house and continued at 12’ width across the back of the house on the east side. This office has determined the addition was made prior to the adoption of the permitting process was adopted by the City as there are no records of the addition. The City Ordinance was adopted in 2007. Included with the application was a plat showing the encroachment.
The current zoning is Residential Single Family (RM-2), which requires a setback of 15'.

Evaluation Criteria

Per section 46-133 of the City of Williston Code of Ordinances:

In order to authorize any variance from the terms of these land development regulations, the board of adjustment and code enforcement must find:

a. Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district.

b. The special conditions and circumstances do not result from the actions of the applicant.

c. Granting the variance requested will not confer on the applicant any special privilege that is denied by these land development regulations to other lands, buildings, or structures in the same zoning district.

d. Literal interpretation of the provisions of these land development regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of these land development regulations and will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of these land development regulations would result in unnecessary and undue hardship on the land.

e. The variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.

f. The grant of the variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of these land development regulations would result in unnecessary and undue hardship on the land.

g. Limitations on subsequent written petition for a variance. No written petition by an owner of real property for a variance for a particular parcel of property, or part thereof, shall be filed with the land development regulations administrator until the expiration of 12 calendar months from the date of denial of a written petition for a variance for such property, or part thereof, unless the board of adjustment specially waives said waiting period based upon a consideration of the following factors:

1. The new written petition constitutes a proposed variance different from the one proposed in the denied written petition.

2. Failure to waive said 12-month waiting period constitutes a hardship to the applicant resulting from mistake, inadvertence, or newly discovered matters of consideration.
The special conditions are that the house was constructed prior to the existence of the ordinance and forcing compliance upon the homeowner would create undue hardship.

Staff Recommendation
The structure was constructed prior to the adoption of the City Ordinance. The City is required by State Statute 120.452 to provide a variance to noncompliant structures that were constructed prior to the adoption of the ordinance.

Staff recommends approval of the variance.
