

THE LEADER IN US FABRIC FINISHING

B&E Fabric Finishing has been providing manufacturers and converters with high-quality coated fabrics for more than 50 years. Our coatings are applied to a wide range of materials using American craftsmanship and engineering to assure the highest level of customer satisfaction.

CUSTOM FABRIC COATINGS FOR MANUFACTURERS AND CONVERTORS

Use our high-performance coatings on a wide range of fabric and substrate materials across multiple applications and industries where water, flame and mildew resistance is necessary and long lasting performance is required.

Wax, Resin and Custom Coatings

Military and commercial wax coated cottons, with a variety of resin and custom coatings for cotton and cotton/synthetic blends.

BUCKEYE

PVC, Latex, Acrylic and Coatings for Various Materials

Saturation coatings and knife coatings for cottons (sheeting to number ducks), polyesters (150 Denier to 1000 Denier), cotton synthetic blends, scrim and other synthetic materials, and custom coatings for felt, fiberglass, and other unique materials.

EXCELLO

HIGH QUALITY FABRIC COATINGS

At B&E Fabric Finishers we have almost every type of fabric and coating you could need for rugged dependability. We'll put our high-quality wax, resin, PVC, Latex, Silicone and acrylic coatings on your fabric or ours. Our experienced professionals can help you select the best combination of fabric and coating for your needs.

PROVIDING HIGH QUALITY FABRIC COATINGS SINCE 1922

Buckeye Fabric Finishing Company began operations as the Goodin-Timmons Company. For nearly four decades Buckeye Fabric was a leading supplier to the American military. From World War II through the Vietnam War, Buckeye Fabric's wax-coated cotton products kept the United States military and their equipment dry.

Today, B&E Fabric Finishing is an innovator in advanced coating products and technology for unique applications where high-performance, quality, durability and color are important.
