| 09:30 - 10:30 | **Session 1: Sustainable Aviation Fuels & Project Finance** | • Bring together project developers, fuel off-takers (including Buyer’s alliances, e.g., SABA), and financiers  
• Enable communication in order to unlock project finance  
• Create an opportunity for financiers to learn and to ask questions  
• Create an opportunity for project developers to learn from financiers  
• Moderated by Jim Spaeth (U.S. DOE BETO | Chair Biofuture Initiative & U.S. DOE Program Manager) |
| 10:30 - 10:45 | **Networking**                             |                                                                             |
| 10:45 - 11:45 | **Session 2: Carbon Accounting & Project Finance** | • Bring producers of bio-based fuels, chemicals, and materials together with financiers  
• Provide examples of how carbon accounting is creating (and de-risking) demand for replacing fossil-based products  
• Enable financiers/investors to understand these evolving markets and the risks therein |
