Senior Structural Engineer: Full-Time

With ARC Engineering you will have the opportunity to apply your extensive knowledge of structural engineering principles and practices to several moderately sized, complex projects at a time. This role will involve working with our team to provide solutions for a wide variety of projects such as:

Industrial Facilities, Aerospace Facilities, Central Plants, Pharmaceutical Research and Manufacturing Companies, Water/Water Waste Facilities, Universities and Colleges, Car Dealerships, Airports, Residential and Commercial-Residential Spaces....

Here's what we're looking for in top qualifying candidates:

MUST HAVE Qualifications and Skills

- Proficiency in AutoCAD (**minimum 5 years of experience**)
- Proficiency in Microsoft Office (Word, Excel, Outlook)
- Previous experience in production of Construction Documents
- Previous experience in all Types of Construction (steel, concrete, wood)
- Good understanding of commonly used Building Codes
- Effective, professional written and verbal communication skills (English)
- Ability to work well with others: Architects, Project Managers and Consulting Engineers
- Ability to address multiple open projects simultaneously
- Ability to prioritize tasks and to meet deadlines
- Ability to be organized and give proper attention to detail
- Self-starter who can take direction and redirection well
- Proof of right to work in the U.S.A.

Highly Desired Qualifications and Skills

- Proficiency in REVIT (**minimum of 2 years experience**)
- M.S. in Structural Engineering
- Proficiency in Bluebeam and/or Adobe
- A highly creative and driven individual
- Strong desire to grow and excel
- Commitment to timeliness
- Currently living within the greater Los Angeles area, and if not, willing to commute/relocate

~We offer health insurance, 401K, typical holidays off, and annual leave. Pay is commensurate with experience. ~
