Hello Fiona,

I have been given your name by APAL, who thought you might be a great candidate for a Nuffield Farming Scholarship.

Applications are currently open for Nuffield Farming Scholarships for 2015 and there are 25 scholarships available to practicing farmers in Australia - including a scholarship for an apple and/or pear grower sponsored by APAL.

A scholarship bursary is \$30,000 and the tenure is 16 weeks over a two-year period with flexibility provided. The first overseas commitment for 2015 scholars is in late-February 2015 with a Contemporary Scholars Conference over seven days.

Please find attached an application brochure with more information. I would be delighted if you would consider submitting an application as its a unique program and the leading scholarship program available to farmers in Australia. To apply, go to the Nuffield Australia website: www.nuffield.com.au/scholarships/ and download the form. Applications close on 30th June.

You can contact me if you require any further information or want to talk about the program in more detail.

I do hope you will consider applying! Alternatively, if you could forward this to any other growers who might be interested I'd be very grateful.

I'll follow-up with you in a few days time to assess your interest.

Best wishes,

Nicola Raymond
