

About Corinthian Capital

Founded in 2005, Corinthian Capital invests in small and middle market companies located primarily in North America. Our principals have over 80 years of combined private equity experience.

We specialize in working personally with entrepreneurs and management teams to assist companies in realizing their untapped potential.

Investment Criteria

Corinthian Capital targets unique, niche companies that have a demonstrated history of profitability, the ability to generate above average margins, and strong cash flows. Our companies have some of the following general characteristics:
