June 12, 2018

Aceso Interactive to Implement Interactive Patient Care System for Nantucket Cottage Hospital

Nantucket Cottage Hospital, (“NCH”), and Boston-based, Aceso[®] Interactive have reached an agreement for Aceso to deploy a healthcare technology solution designed to engage, communicate, and improve the patient and guest experience as well as improve the clinical work flow.

Nantucket Cottage Hospital is implementing the Aceso **Next-Gen Integrated Technology** platform, UpTech™ and UpCare™, an advanced interactive patient engagement solution. NCH will install Aceso’s technology throughout the inpatient private rooms, utilizing a user interface that accesses an *Enterprise Media Repository* which stores, streams and manages all the system’s content from a single source.

The Aceso software-based solution is displayed on a large-screen Smart TV allowing patients to access patient-specific and hospital information, entertainment, relaxation and wellness content. The system is personalized to each patient by sourcing a variety of data from Epic, the hospital’s electronic health record system.

Aceso Interactive President, Geoff Fiedler, added: “We are thrilled to have been selected to implement our Next Generation Integrated Technology solution as part of the entire Island community effort to build a hospital for the future that is committed to those on their healthcare journey throughout the patient care process.”

About Aceso-

Aceso, (Uh-kesso) provides the nation’s premier interactive patient care and digital media solutions. UpCare™ delivers patient-specific educational content, top entertainment and bedside assistance to enhance recovery, ease staff workload, improve outcomes and better coordinate education and patient care. Aceso’s engaging and efficient digital display solutions communicate a caring experience across the entire hospital enterprise to bring patients, visitors and staff closer together. Our approach to care connects the public with the provider and creates awareness while building confidence in the provider’s expertise and specialties. Established in 2009 and headquartered in Charlestown, Massachusetts, Aceso advances patient care for some of the nation’s leading hospital networks, from the bedside up. Please visit www.aceso.com for more information and follow Aceso on Twitter- @Aceso_UpCare.
