

How to measure for your Step Above Ladder.

Finding the right Step Above ladder for your horse or utility trailer or RV is as easy as 1-2-3.

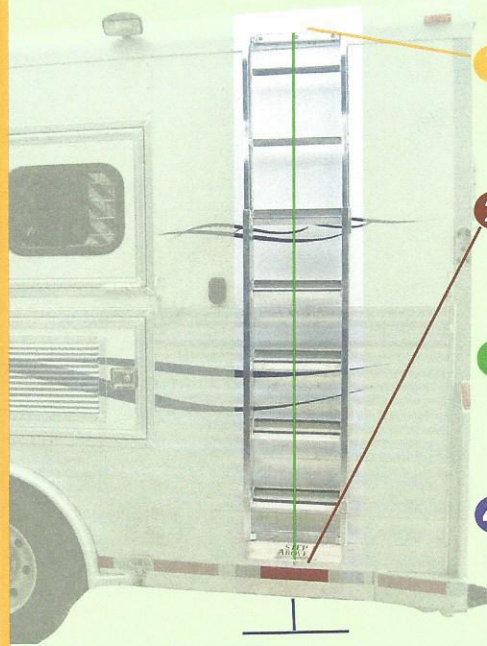

Follow the directions at right to determine the measurements. You'll need these when placing your order.

If you plan on installing the ladder yourself, call 432-524-2097 or visit stepaboveladders.com for complete installation instructions.

MY TRAILER'S MEASUREMENTS

● Ladder Height: _____ inches

● Ground-to-Edge Height: _____ inches

1 Make a mark 2" above the seam or drip lip (if equipped).

2 Make a second mark at the bottom edge of the trailer or top edge of the running board (if equipped).

3 Measure the distance between the two marks. This is your ladder height.

4 Measure the distance between the bottom edge of the trailer or top edge of the running board and the ground.
