

Transformational Research: Canada 2020

Alzheimer's & Related Diseases

FUNDING for transformative, novel, high-risk, high-reward translational research projects

\$300,000 - \$1,500,000 over up to 3 years

CONTINUING FOR 2020:

- No preliminary data is required and instead can be collected as an early milestone in the grant.
- Complementary approaches such as diet, physical activity, sleep, nutritional supplements, speech therapy, and cognitive therapy, are eligible.

INSTITUTE DEFINITION OF NEURODEGENERATIVE DISEASES OF AGING

- Alzheimer's disease
- Frontotemporal dementia
- Parkinson's disease
- Dementia with Lewy bodies
- Progressive supranuclear palsy
- Multiple system atrophy
- Vascular contributions to the above diseases
- Prodromes to the above diseases

IMPORTANT DATES

- Information Webinar:** February 24, 2020 at 1pm ET
- Application Deadline:** April 24, 2020 at 2pm ET
- Award Announcement:** October 2020

ELIGIBILITY CRITERIA

APPLICANT must be:

- At or above the level of **assistant professor**
- At a **CRA qualified donee institution** located in Canada

PROJECT must be:

- Development of a **therapeutic** and/or **tool**, and/or **complementary approach**
- Translational research that helps accelerate the development of therapeutics for neurodegenerative diseases of aging

AD-RELATED diseases:

- Alzheimer's disease
- Frontotemporal dementia
- Mild cognitive impairment
- Vascular contributions to the listed diseases
- Prodromes to the listed diseases

Proposed projects may relate to any disease(s) but must have impact on the diseases above.
