

LED RETRO TROFFER ECO 2X2

PRODUCT DESCRIPTION:

The LED Retro Troffer Eco Kit is the easiest way to convert an existing fluorescent troffer to an energy efficient LED troffer. The LED Retro Troffer Eco Kit houses both the boards and the driver eliminating an additional step of installing the driver. Simply remove the contents of the existing fluorescent troffer and install the LED Retro Troffer Eco Kit with four tek screws.

FEATURES:

- Save installation time with factory installed boards and drivers
- Available in 2x2 & 2x4 (See 2x4 spec sheet for details)
- Kit includes: LED boards, LED driver, mounting screws
- 0-10v Dimming standard
- Limited warranty: 5 years on luminaire

APPLICATIONS:

- Office
- Schools
- Universities
- Fitness Rooms
- Hospitals
